

Fantastic Specials

The Two fan combination can't be beat for improving the quality of your indoor living while providing real savings on your monthly utility bill.

#1) Attic Fan ... The attic fan automatically exhausts the super heated air from your dead attic space.

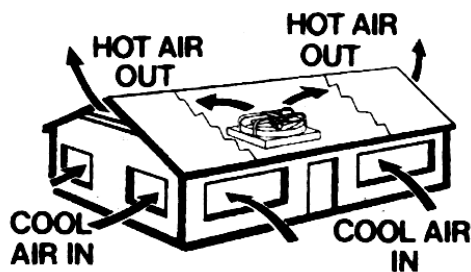

- ✓ Reduce A/C cost by as much as 30%
- ✓ Lengthens roof life by keeping shingles cooler.
- ✓ Lowers upstairs room temperatures by 10°

\$585.00

Complete

Price includes: A Broan (Best Quality) fan, full roof installation and electrical wiring with automatic thermostat and safety cut off and FULL (2) year warrantee on all parts & installation. No slate roof or pitch greater than 30 degrees.

#2) Whole house Fan... This is not your Grandmother's Fan.

Many people use whole house fans as an alternative to air-conditioning. A whole house fan is most effective when outside air temperatures are below 82°F. It brings a cooling breeze in through the windows of the home and cools more efficiently than an air-conditioner.

We bring you the newest fan tech-nology. Our units utilizes twin, high-tech, super efficient fan motors to minimize noise and power consumption. Our systems have the automatic door assembly, providing an air-tight seal with an insulating value of R-22.

Two speed motor – rated 1,600 cfm on high.

Pricing – Our complete installation with full (2) year warrantee **\$900.00** for the typical home*.

*extra fee for plaster ceiling or if no electric in attic.

(Standard Cost Attic Fan \$710.00 – Whole House Fan \$1,079 – YOUR SAVINGS \$304.00)
